

4x2: Part 2

Final outcome: Each group creates a French PowerPoint presentation with audio files integrated about a food/drink specialty in the region of the assigned city. Integrate a proverb from handout 60 into the conversation of subtopic A, B or C.

Progression and tentative time frame:

1. Preliminary research by all group members, selection of specialty and approval by Mme L. in class
2. Subtopics assigned to group members
3. Each group member researches assigned subtopic, drafts his/her component PowerPoint (pictures and limited text) and composes written draft of audio script for his/her component
4. Peer editing of PowerPoint components and written scripts for components
5. Feedback from Mme L. on PowerPoint components and written scripts for audio components
6. Finalize PowerPoint components based on Mme L.'s feedback
7. Rehearsal and recording of audio components to be integrated into PowerPoint presentation.
8. Viewing of PowerPoint presentations in class
